

**Are you going to tell her
you're not using AgriThane®
high performance spray
foam insulation again
this year?**

**AgriThane® is an innovative
high performance insulation
that helps lower production
costs, reinforce structures,
and provide blackout for
improved poultry growth rates**

Make them happy.
Use AgriThane® High Performance
Spray Foam Insulation by NCFI.

**AgriThane**
ADVANCED AGRICULTURAL INSULATION

- Eliminates unwanted air infiltration
- Seals and insulates sidewalls, end walls, and ridge caps, either in new or retrofit applications
- Reduces energy consumption and lowers energy costs
- Seals air leaks without a separate vapor barrier and can be applied to most types of construction materials
- Can greatly reduce mortality rates and increases yield
- Applied rapidly with minimal impact on poultry house operations
- Formulated with renewable agricultural resources
- Safe and odorless after installation
