

Robbie Ferris loves InsulStar!

**"Truly effective design
drives energy performance."**

"When I'm designing a building I begin at the nexus of design assumptions and real-world building performance: the envelope.

I specify InsulStar® high performance spray foam insulation because I know and trust it. InsulStar® gives me great flexibility in my designs, can be used with poured concrete, primed steel, wood, CMU, and most other construction materials.

InsulStar® adds solid LEED points, is safe, and can save up to 40% in energy costs.

If you want energy efficient, comfortable, sustainable, and healthy buildings you have to design and build them with great materials. InsulStar® is the ideal place to start."

Robert W. Ferris, AIA, REFP, LEED AP

CEO and Co-Founder of SFL+a Architects,
Co-Founder Firstfloor, Inc., providing turnkey
development solutions to educational institutions.
